NEW VARIETIES FOR 1929

Originated and Grown by Me.

SUPREME BEAUTY—(H. C.)

This is one of the finest Hybrid Cactus Dahlias it has been my lot to grow in the thirty-five years I have been growing them. The flowers are 7 to 9 inches in diameter, grown on stems 3 to 5 feet long. The blossoms when cut last from five to seven days. The color is thulite pink, with the extreme base of the petals picric yellow. At the Brockton Fair last October, two vases of 6 and 12 on stems three feet and over in length, entered as the best pink, won first prize in both classes; and the vase of twelve also won the Silver Cup as the most outstanding flower in the whole show. The flowers were cut Sunday noon, staged Monday morning, and were not replaced until the following Saturday, when three were still good enough to remain on exhibition. The plants are tall, rugged growers, with many laterals, which are covered with blossoms all season. The tubers keep well and make large clumps. For cut flowers, exhibition table or garden decoration, it cannot be surpassed. Tubers, $10.00. Plants, $5.00.

SUPREME GLORY—(Dec.)

A wonderful bi-colored flower. It grows on long rugged stems well out from the foliage. The ground color is yellow, spotted and striped with carmine. Immense size, diameter and depth. This variety also attracted a lot of attention at the Brockton Fair. Tubers, $5.00. Plants, $2.50.

SUPREME DREAM—(Dec.)

This decorative dahlia is a sensation in the garden. The color is a beautiful apricot buff, each petal being tipped pure white. The flowers, although not so large as some varieties, are of good size and wonderful for cutting, as the bushes are full of flowers all season. An excellent variety for vase display. Tubers, $5.00. Plants, $2.50.
